

EGYPTIAN ORIGIN / BULK INDUSTRIAL SUPPLY

Egyptian Calcium Carbonate Lumps

High-Purity Limestone Lumps for Industrial Buyers

TAS Flowrance presents Egyptian calcium carbonate and limestone lumps for importers, processors, distributors and industrial procurement teams requiring chemical clarity, selected size ranges and export-focused supply communication.

Representative white limestone lump visual

PRODUCT FORM

Natural lumps

Crushed sizes by request

FINAL CONTROL

COA based

Lot and offer govern

Indicative Chemical Analysis

The values below are reference data for initial procurement review only. Shipment acceptance, tolerances and suitability must be confirmed by the current Certificate of Analysis, approved sample and final offer.

Component	Indicative Value	Procurement Note
CaCO3	Up to 99.5%	High calcium carbonate reference for selected industrial discussions.
MgO	0.01%	Low magnesium oxide reference; confirm by current COA.
SiO2	0.30%	Verify for applications with strict silica limits.
Fe2O3	0.01%	Iron content may affect color-sensitive applications.
Al2O3	0.01%	Confirm alumina level in the shipment COA.
Loss on Ignition	43.89%	Reference laboratory value; final lot analysis governs.

Typical Buyer Applications

Mineral Processing

Feedstock for crushing, grinding or further processing according to the buyer's plant requirements.

Construction & Cement

Industrial and construction-material discussions subject to chemistry, size and local standards.

Agricultural Lime

Selected agricultural-lime supply discussions where chemistry and particle size meet buyer needs.

SIZE OPTIONS / PACKING / EXPORT RFQ

Commercial Supply and Buyer Checklist

Calcium carbonate lumps are quoted against the required chemistry, size range, quantity, packing, destination port and end-use application. Custom crushing or alternative sizes require confirmation before offer.

Bulk material handling and export-supply visual

Available Size Positioning

Previous product data includes the size examples below. Final size distribution and tolerance must be stated in the quotation and confirmed

0-10 mm

Selected small-lump route

10-40 mm

Larger-lump route

Other crushed sizes: subject to screening, availability and buyer agreement.

Packing Options

Jumbo bags, smaller bags or bulk handling may be discussed according to size, quantity, loading method and destination.

Shipment Terms

FOB, CFR or CIF may be discussed subject to order volume, loading plan, port, vessel or container route and final quotation.

Export Documents

COA, Commercial Invoice, Packing List, Certificate of Origin and Bill of Lading, plus destination-specific documents when agreed.

Buyer RFQ Checklist

- Required product: calcium carbonate / limestone lumps.
- Target chemical limits, including CaCO_3 and impurity limits.
- Required size range and acceptable tolerance or fines.
- Quantity per shipment and expected supply schedule.
- Packing preference and loading route.
- Destination country, port and preferred shipment term.
- End-use application and required documents or inspection.

Important commercial note

This document is a buyer-screening technical summary, not a shipment certificate. Final chemistry, moisture, size distribution, packing, availability and acceptance criteria are confirmed only by the current COA, approved sample and signed commercial offer.
