

EGYPTIAN SIWA OASIS ROCK SALT

Technical Data Sheet | Natural Halite | Bulk Industrial Salt Export

TAS Flowrance presents Egyptian Siwa Oasis rock salt for international industrial buyers, importers, distributors and procurement teams. The material can be reviewed for water treatment, deicing, chemical processing, industrial use and bulk salt distribution, subject to the buyer's final specification and current certificate of analysis.

PRODUCT OVERVIEW

Natural Egyptian rock salt for industrial procurement.

Commercial discussions should confirm required NaCl purity, particle size, moisture, insoluble matter, product form, packing, destination port and intended use before quotation.

Product form: crystalline rock, crushed salt or powder according to buyer requirement and availability.

Origin: Egypt.

QUICK TECHNICAL PROFILE

Buyer-screening specification snapshot

98.5-99.5%	< 1%	< 1.0%	0-0.6 mm
NaCl purity reference	Moisture	Water insoluble matter	Standard size reference

APPLICATIONS

Primary industrial buyer applications

Water Treatment Salt supply discussions for water softening and regeneration systems according to required purity and size.	Road Deicing Rock salt for road maintenance and winter safety where local standards and particle size requirements are confirmed.
Chemical Processing Industrial salt sourcing for chemical and process-industry requirements subject to technical review.	Bulk Distribution Supply positioning for importers, distributors and industrial raw-material traders.

BUYER NOTE: Final suitability depends on the buyer's application, technical standard, approved sample, current COA and agreed commercial terms.

TECHNICAL SPECIFICATIONS

Egyptian Siwa Oasis Rock Salt - reference data

The following values are prepared for buyer screening and commercial discussion. Final contractual values and tolerances must be confirmed in the current COA and final offer.

Parameter	Reference value	Buyer review note
Product	Natural Rock Salt / Halite	Egyptian-origin industrial rock salt.
NaCl Purity	98.5-99.5%	Confirm final lot value by COA.
Moisture	< 1%	Moisture tolerance should match storage and use.
Water Insoluble Matter	< 1.0%	Confirm where the buyer process is impurity-sensitive.
Appearance	White to off-white crystalline	Natural color may vary by lot.
Available Form	Crystalline rock, crushed or powder	Form and handling route subject to order.
Standard Size Reference	0-0.6 mm	Other size ranges should be requested explicitly.
Origin	Egypt	Export supply discussion through TAS Flowrance.

PACKING & EXPORT

Order details required before quotation

Packing options can include bulk shipment, jumbo bags or bagged supply according to product form, quantity, handling needs and destination.

FOB, CFR or CIF can be discussed according to order size, destination port, freight conditions and final quotation.

Export documents: COA, commercial invoice, packing list, certificate of origin and bill of lading can be discussed according to shipment terms and buyer instructions.

RFQ CHECKLIST

Information buyers should send

• Required salt type and intended application.	• Required NaCl purity, moisture and insoluble-matter limits.
• Required particle size or form: rock, crushed salt or powder.	• Quantity, delivery schedule and preferred packing.
• Destination country, destination port and Incoterm.	• Required COA values, inspection, sampling or certificates.

FINAL SPECIFICATION NOTE: Reference values are for buyer screening. Final chemistry, size, packing and shipment details are confirmed by current COA, approved sample and final offer.
