

EGYPTIAN ORIGIN / FERTILIZER RAW MATERIAL

Granular Rock Phosphate with Sulphur

Supplier Egypt

TAS Flowrance supplies granular rock phosphate with sulphur from Egypt for fertilizer distributors, agricultural input buyers, blenders and bulk importers requiring COA-based grade confirmation, controlled granule sizing and export packing support.

Representative granular product view. Final appearance by batch and COA.

P2O5

26% standard

27-28% by COA

SULPHUR S

5% by COA

Keep separate

SO3

12% min

Do not add to S

SIZE

1-5 mm

90% min

FINES

Under 1 mm

10% max

Available Grade Positioning

Grade availability and final shipment values are confirmed according to the current COA and final commercial offer.

STANDARD

26% P2O5

5% Sulphur S by COA

Primary buyer review grade

MID

27% P2O5

Subject to COA

Offered when available

HIGHER

28% P2O5

Subject to COA

For higher phosphate requests

Product Position

A granular phosphate raw material enhanced with sulphur content for agricultural fertilizer supply routes. The product is reviewed as one family with 26%, 27% and 28% P2O5 options subject to COA.

Buyer Fit

Fertilizer importers, agricultural distributors, bulk blending companies and procurement teams requesting phosphate plus sulphur with controlled size and clear export terms.

Request a quotation with grade, quantity, packing and destination port.

COA-BASED TECHNICAL REVIEW

Technical Specification Summary

The values below support buyer screening. Final chemistry, tolerances, moisture, solubility, packing, shipment values and acceptance criteria are confirmed according to the current COA and final offer.

Analysis Item	Requirement / Value	Buyer Note
Total P2O5	26% standard; 27% or 28% subject to COA	Use the final COA for grade acceptance.
Sulphur S	5% by COA	Sulphur content as S; keep separate from SO3.
Sulphur Oxide SO3	12% min	Listed separately; do not add SO3 to Sulphur S.
Granule Size	1-5 mm, 90% min	Main granular fraction for handling and blending.
Under 1 mm	10% max	Fine fraction control subject to size confirmation.
Moisture	Subject to final COA	Confirm tolerance before quotation and order.
CaO and Solubility	Subject to final COA	Confirm where required by buyer application.
Origin	Egypt	Export supply from TAS Flowrance Group.
Packing	Jumbo bags / bags / as agreed	Final packing follows quotation and loading plan.

Important technical note

Sulphur S and sulphur oxide SO3 are separate analysis items. They must not be combined as one total sulphur value. Final shipment values are confirmed by COA.

Buyer RFQ Checklist

- Required P2O5 grade: 26%, 27%, 28% or custom technical target.
- Quantity and shipment schedule.
- Packing preference: jumbo bags, bags or buyer-agreed packing.
- Destination port and shipping term: FOB, CFR or CIF.
- Required documents, COA values, size tolerance and application.
- Buyer company details for quotation review.

Packing, Shipping and Documents

- Jumbo bags, bags or packing agreed in the final offer.
- FOB, CFR or CIF discussion according to order and destination port.
- Certificate of Analysis, Commercial Invoice and Packing List.
- Certificate of Origin and Bill of Lading as applicable.
- Other inspection or buyer-specific documents by agreement.

FINAL SPECIFICATION CONTROL

Final values, packing and shipment details are confirmed by COA and final offer.
